Mr. Ahmed Said Abd El Mongi **Ms. Sahar Saleh Abd El Hameed**

Dr. Amira Fawzy Ahmed

Educational supervision

Dr Akram Hassan Mohamed

The Minister's Assistant for Educational Curricula Development Supervisor
of the Central Administration for Curriculum Development

Introduction

The Ministry of Education and Technical Education recognizes the importance of empowering teachers with effective tools that elevate classroom performance, enhance the quality of education, and improve its outcomes. This is a real response to the voices of teachers, interacting with the feedback channels from the educational field, and meeting the needs of teachers for flexible and comprehensive educational tools that assist them in fulfilling their noble educational mission.

This book has been designed to serve as an integrated educational support for teachers, helping them in planning and executing their teaching tasks efficiently. It also facilitates continuous assessment processes. The content has been designed to offer diverse models of effective classroom performance and educational activities created based on an interactive methodology that enhances active learning. It contributes to a qualitative shift in teaching practices, clearly focusing on the student as the core of the educational process.

The book includes formative and diagnostic questions, as well as purposeful learning tasks that students can complete as homework, enhancing the integration of learning inside and outside the classroom and contributing to the sustainable construction of learning for students. These tools help develop critical and creative thinking, deepen understanding, and support and enhance student motivation, giving them a sense of achievement and excellence.

It also includes short weekly tests and periodic assessments, allowing teachers to measure the extent of learning outcomes and address learning gaps early, providing feedback on the initial results. The performances at the end of each month are concluded with immediate training sessions that help improve student performance. These assessments are gradual, taking into account individual differences and targeting various levels of cognitive development, within a framework of diversity, depth, and integration, preparing students for monthly tests efficiently.

This book is a true translation of the Ministry's directions to ease the burdens on parents, provide supporting educational content that enriches the classroom environment, and allow teachers more time for educational innovation and productive interaction with their students. It also forms an effective tool in supporting the Ministry's direction to enhance learning outcomes, achieving a real transformation in the learning environment—from memorization to understanding, from rote learning to application, and from passive reception to active participation.

When we place this work in the hands of teachers and students, we hope it will be a valuable contribution to improving academic performance, enhancing the quality of education, and becoming an additional cornerstone in building a generation that is aware and knowledgeable, equipped with the skills and competencies needed for success in a world that demands creativity and innovation. It aims to have a tangible impact in realizing an ambitious educational vision for the future of education in our beloved country.

Allah is the one sought for help, and He guides to the right path

Unit One
Life in a Digital World

Lesson1: A Day in My Digital Life

Date : ...../...../.....

(B)

(confidence– confident –designer – art– talent)

My dream is to became a graphic..... . I enjoy drawing and using technology. Last summer, I joined a free .....programme in my city. It was hard work, but I learned a lot. My teacher said I have a real....., and that made me..... .

READING AND SPEAKING

1) Read the following text , then answer the questions:

Saving electricity is important for both yourself and the environment. One simple way to save electricity is by turning off lights when you leave a room. Also, use energy-efficient light bulbs that consume less power. Unplug devices like phone chargers and other electronics when you are not using them, as they can still use energy when plugged in. Another way to save electricity is by changing your habits. In the winter, wear warm clothes instead of using the heater. In the summer, set the air conditioner to 24°C and use fans to help cool down. Lastly, try to use natural light during the day instead of turning on lamps. By following these easy steps, you can reduce your electricity use and help the environment.

A)answer the following questions:

1- What is the main idea of the text?

2-Why is it important to save electricity?

3-What other habits can we change to save electricity?

B)Choose the correct answer from a,b,c,d:

1- To save electricity, we should.....when you leave a room .

a. Use more lamps b. leave devices c. turn off lights d. sleep early

2- The underlined pronoun ”they” refers to..... .

a. chargers b. lights c. devices d. clothes

3-The text suggests you use ..... instead of lamps during the day.

a. Fans b. natural light c. extra lamps d. air conditioning

2)Complete the following dialog:

Adel: Hi Karim! What do you like to do in your free time?

Karim: Hi Adel! (1)..... .What about you?

Adel: I like to paint. Do you paint, too?

Karim: No, but I think it’s cool. (2).....?

Adel: Yes, I play sports. I play basketball.

Karim: (3)..... .

Adel: What kind of films do you like?

Karim: I like action films. What about you?

Adel: I like comedy ones. (4)..... ?

Karim: (5)..... . Playing video games is fun!

WRITING

Adel and Karim are talking about their free time. Karim likes to play guitar.

10) Write a biography of (80-100) words on:

"A Famous Egyptian Scientist"

Audio script files:

1) Unit 1: Egypt has launched its first hybrid bus in Aswan. It runs on both electricity and diesel, helping reduce pollution and protect the environment. The bus was made by an Egyptian company and includes modern technology like smart navigation and quiet engines. It supports Egypt's vision 2030 for clean, smart cities. Most parts of the bus are made locally, creating jobs. This bus is just the start of Egypt's journey to greener, smarter transportation.

2) Monthly revision 1 Listening text:

1- Digital learning has become a key part of modern education. With devices like tablets, smartboards, smartphones, students can learn anywhere and work with others around the world. Online learning needs focus and motivation, but it also gives students the chance to learn in their own way.

Technology helps improve communication through apps and group chats, and it builds important skills.

However, technology alone isn't enough-teachers and community support is still very important in education.

2- The monorail will improve the daily life of Egyptian citizen in many ways. First, it will reduce travel time, making it faster for people to move between different parts of the city.

Second, it will help reduce pollution because it uses electricity instead of fuel.

There are some main differences between the monorail and other types of public transportation. Unlike traditional trains or buses, the monorail runs above the ground on a single rail, so it doesn't get stuck in traffic. Also, it's faster, quieter, and more modern than older systems.

3)Monthly revision 2 Listening texts:

1-New Alamein is a marvelous city on the North Coast of Egypt. It's one of the first fourth-generation cities in the country, designed with advanced technology and smart urban planning. The city has a strong impact on tourism and the economy because it attracts thousands of visitors every year. New Alamein has beautiful sandy beaches, luxury resorts, international restaurants, culture centers that show Egypt's rich history. It also includes modern residential areas, business centers, and universities, which combine tourism, eduction, and work.

2-Planning your future career starts with knowing your talents and interests. It's okay to try different things and learn from failure. Education and training help you build the skills you need. Besides personal goals, it's also important to be a global citizen. This means thinking about how your actions affect the world. For example, reducing plastic helps protect oceans and marine animals. Being a global citizen also means respecting others, and helping with global problems like climate change. Making smart, responsible choices now can help create a better future for everyone.

3) Sample Test: Listening text:

Adel learned about global citizenship in his English class. He was astonished to find out that small actions could make a big difference. He and his classmates decided to help by collecting books for schools in need. Adel joined a clean-up event at the park and started using less plastic at home. He felt proud to be part of something that helped others and protected the environment. His teacher said that being a global citizen means thinking about people and places around you. Adel realized that even young students can act with responsibility and kindness. He now encourages his friends to take care of the world.
