Performance Tasks and Assessment

Preparatory Stage - Year Two

First Term

Introduction

The Ministry of Education and Technical Education recognizes the importance of empowering teachers with effective tools that elevate classroom performance, enhance the quality of education, and improve its outcomes. This is a real response to the voices of teachers, interacting with the feedback channels from the educational field, and meeting the needs of teachers for flexible and comprehensive educational tools that assist them in fulfilling their noble educational mission.

This book has been designed to serve as an integrated educational support for teachers, helping them in planning and executing their teaching tasks efficiently. It also facilitates continuous assessment processes. The content has been designed to offer diverse models of effective classroom performance and educational activities created based on an interactive methodology that enhances active learning. It contributes to a qualitative shift in teaching practices, clearly focusing on the student as the core of the educational process.

The book includes formative and diagnostic questions, as well as purposeful learning tasks that students can complete as homework, enhancing the integration of learning inside and outside the classroom and contributing to the sustainable construction of learning for students. These tools help develop critical and creative thinking, deepen understanding, and support and enhance student motivation, giving them a sense of achievement and excellence.

It also includes short weekly tests and periodic assessments, allowing teachers to measure the extent of learning outcomes and address learning gaps early, providing feedback on the initial results. The performances at the end of each month are concluded with immediate training sessions that help improve student performance. These assessments are gradual, taking into account individual differences and targeting various levels of cognitive development, within a framework of diversity, depth, and integration, preparing students for monthly tests efficiently.

This book is a true translation of the Ministry's directions to ease the burdens on parents, provide supporting educational content that enriches the classroom environment, and allow teachers more time for educational innovation and productive interaction with their students. It also forms an effective tool in supporting the Ministry's direction to enhance learning outcomes, achieving a real transformation in the learning environment—from memorization to understanding, from rote learning to application, and from passive reception to active participation.

When we place this work in the hands of teachers and students, we hope it will be a valuable contribution to improving academic performance, enhancing the quality of education, and becoming an additional cornerstone in building a generation that is aware and knowledgeable, equipped with the skills and competencies needed for success in a world that demands creativity and innovation. It aims to have a tangible impact in realizing an ambitious educational vision for the future of education in our beloved country.

Allah is the one sought for help, and He guides to the right path...

Unit 1 : Gen Alpha

(Science / Mathematics /impact / Germany / biomedical)

Hany Azer is a famous Egyptian Engineer. He made a great……..in the world of civil engineering. He was born in Tanta, Egypt, and later moved to…… . Hany Azer has a relative who works as a ……. engineer. Together they believe in using……..and technology to help people live better lives.

4) Read the following text and answer the questions.

One summer evening, I was sitting by the open window reading a new story. After a time, it became too dark to read easily. So, I put my book down and got up to switch on the light. I was just about to draw the curtain when I heard a loud cry of "help". It seems to come from the trees at the end of the garden. I looked out

but it was now too dark to see anything clearly. I thought one of the boys of the neighborhood had climbed a tree and couldn't get down but I saw nothing. I used my torch to see my way back home. When I reached the window near the door of the house in the garden. I saw a bird sitting on the top of the window. It was a large, green and big bird. It was a parrot. It was repeating "help" but in a faint voice.

A) Choose the correct answer.

1. The writer used a ..... to see his way.
   a) knife b) torch c) bag d) ruler
2. It was a .....that cried "help".
   a) parrot b) boy c) policeman d) lady

Tarek: .....(2) .....?

Mona: I bought it a week ago.

Tarek: .....(3) .....?

Mona: It is made in Japan.

Tarek: Can you use it well ?

Mona: .....(4) .....

11) Write a paragraph of (90-110) words about " The Pros and Cons of Using the Internet"

Listening Texts.

Monthly Revision 1

Gen Alpha generation are called "digital natives." This means they're the first generation to grow up entirely in a digital world. They often learn to use technology even before they can read. They do spend a lot of time online, exploring the latest trends that spread quickly. They share memes and use emojis to express their feelings. Parents want their children to limit their screen time and to balance online activities with real- life connections.

Monthly Revision 2

Playing sports is a fantastic way to stay active, have fun, and socialize. Whether you enjoy team sports like soccer or basketball, or individual sports like running or swimming, there's something for everyone. Sports can help you improve your physical and mental health, develop teamwork and leadership skills, and meet new people.

Sample Test

Malak is 13 years old. She invented the Clean Shoes Machine. Every day at school, many students walk in with dirty shoes. This makes the floors messy. Malak's machine cleans shoes in only 10 seconds. She made a prototype of the invention with her dad. It works well, but she might add a dryer, so the shoes don't stay wet. This invention will help schools stay clean. It might also stop people from slipping on wet floors.
